

V94 Midigausser

Erases S-VHS, VHS, Beta & U-matic cassettes

Lightweight & portable

Erases up to 1500 Oe media

Easy dual pass operation

Low cost & efficient

Suitable for 4 & 8mm & DAT

Designed to provide a cost-effective facility to erase a variety of common video and data magnetic media formats, the V94 will appeal to anyone in the video industry who requires a low cost, compact eraser to handle small to medium quantities of cassettes, cartridges or tapes.

Operation is simple and safe and is achieved by sliding cassettes, using the guide bar, or rotating tape reels over the degausser's surface. This provides effective erasure of any previously recorded tracks. The V94 has an automatic thermally controlled cooling fan, allowing the machine to be used to erase large batches of media. Additional electrical safety is provided by a mains supply fuse.

The V94 will be of interest to operators in the duplicating, production, CCTV, voice logging and instrumentation industries who will benefit from the increase in quality and efficiency that the V94 Midigausser will bring.

V94 *MidiGausser*

Media Handling:

Cassettes: VHS; S-VHS; Beta; U-matic
Cartridges: Data DC 300, 600, 2000, 3480/3490; TK50, TK70;
4mm & 8mm; DAT; DLT; Floppy Disks

Power Supply:

220 ~ 240V AC 50Hz
115 ~ 208V AC 60Hz

Current Rating:

1.8 amps typical (50Hz)

Erase Depth:

-75db

Degaussing Force:

2800 Oe

Duty Cycle:

Non-continuous, initial run 12 mins with 40% duty cycle
first hour dependent on ambient temperature

Dimensions (HxWxD):

4.5" x 13.9" x 14.5"
114mm x 353mm x 363mm

Weight:

30lbs (13.6kg)

Throughput:

180 S-VHS per hour typical

Controls:

Mains On/Off switch

Indicators:

Erase

Warranty

12 months back to base, all parts and labour included.
Extended warranties also available.
